Pacific Southwest Bank is beginning a unique service...

What is imaging on the new statements?

Image statements provide you with state-of-the-art laser printed images of each check and deposit slip that goes through your account each month. Imaging along with the new streamlined statement format will make your statement easier to read and store.

Take a look at the benefits imaging provides . . .

- You'll receive laser printed images of each check and deposit slip, for easier reading, sorting and balancing.
- For faster recognition of check numbers, dates, and amounts, these numbers are printed below each check or deposit slip.
- Your record keeping is simplified and your records will take up less space with our pre-hole-punched statements.
- We'll also provide you with a free binder* to keep your images and statements all in one place.
- You will still receive a state-

ment showing all your transactions and a balance summary each month.

- Imaged copies of your canceled checks are acceptable proof of payment for the IRS.
- Faster turnaround on research and copies of canceled checks.
- For those of you with special needs, you can receive enlarged images upon request.

- We will continue to keep permanent records of the front and back of your check images for research purposes.

Helpful Hints about imaging

- Using **black ink** will help to retain all the information you may need to refer to on each check.
- Please avoid using purple, red, and green inks.
